City Options New Water Field

Ounce Of Prevention

Explorer Scouts of Post 66 in Canyon have been stenciling addresses on trash cans for the past two weeks, and will wind up their campaign this Saturday. Here preparing to stencil an address are three Post members, from left, Kenny Crossland, John Harper, and Billy Dan Crossland. Persons who have not been contacted by the scouts are asked to call OL 5-2546 and leave their name and address, along with the number of cans they wish stenciled. The boys will be around Saturday to finish up the job, according to Joe Gidden, post advisor. Cost is 50 cents per trash can.

Supply For 30,000 Population Assured

City officials Tuesday inked a contract which will give Canyon access to underground water sufficient for a population of more than 30,000.

An option contract was concluded with C. G. Pond for water rights on a section of land lying adjacent the northwest section of Canyon's present four-section water field.

The land in question is about 12 miles northwest of Canyon.

Canyon put up $10,000 for an option to purchase water rights on the section by Oct. 1 at a total cost of $50,000. City Manager Dewey Bryant said a dozen or more test holes will be punched in the section in the meantime.

Bryant said there is every reason to believe that water under the Pond section is as good and as abundant as that under the present water field which it abuts.

Bryant said two wells have been recently completed on adjacent land. He said the driller pumped one of the wells for several hours at a rate of 1200 gallons an hour without noticeable draw down.

Three city wells are located on the section adjacent the Pond section. These are being pumped 6 inch streams. Bryant says they could be pumped at a much greater rate.

"These are excellent wells," said the city manager, "they are about 250 feet in depth."

Bryant said the present water field is estimated to be sufficient for a population of 15,000 to 20,000. He said he believes that with the addition of the Pond section, the city will have access to enough water to supply a city of 30,000 population.

The city will be able to use existing water lines from the field if the new water rights are acquired.

Canyon has just spent $48,000 on its water system. Bryant said the city's pumping station in the northwest part of town may now be bypassed with gravity flow putting water into the city's system. He noted that this will permit putting water into the system without lifting it from underground tanks to the

Court Eyes Hospital Insurance

Commissioners court Monday heard a proposal for hospitalization insurance for county employes with the county to participate in at least a part of the cost.

The proposal was submitted by John Halley, an Amarillo insuranceman.

Halley suggested that he be appointed agent of record for the county. Commissioners referred the matter to Randall County Criminal District Attorney George Dowlen for study.

Dowlen is to advise the court to what extent the county legally can participate in such a plan. The court took no action.

In other business, the court authorized Justice of the Peace W.A. "Bill" Wilson to advertise for bids for dockets for the justice court.

84 Cast Votes In City Race

Incumbent John Williams and J. Manly Bryan were elected to the Canyon City Commission Tuesday.

Election judge Jack Jennings said 84 votes were cast in the light turnout.

Williams received 82 votes to return him to office. Bryan received 82 votes for his first term.

One write-in vote was registered for J.D. Byrd.

I quit coaching football early;—mainly because my stupid quarterbacks too often did exactly what I told them to do!

BUD SHELTON, seven-year-old son of Mr. and Mrs. Buddy Shelton, shows that an open heart surgery, performed two years ago in Dallas, didn't slow his activities down a bit. Lions Give Scouts $1500

Canyon Lions' Club members gave an unexpected boost to the Girl Scout Building Fund with the gift of $1,500 Wednesday.

The money is being presented to local Scout council heads in three installments at Lions' Clubs meetings, according to Kenneth Waugh, president.

Accepting the gifts for the council are Mrs. Charles Nester, chairman of the council, and Mrs. Troy Martin.

"Because one of the aims of Lions' Clubs is to further community development, we felt that one of the best things we could do for the city of Canyon would be to help the Girl Scouts in their biggest need right now, that of obtaining a building," Waugh stated.

Lions Club members assisted the local Girl Scout council several years ago with a gift of $500 at the time that property for the proposed building was purchased.

With the addition of the $1,500 gift, building fund totals are near $8,000. Not all funds from recent cookie sales have been reported.

Approximately $12,000-$14,000 will be needed to construct the building.

"We are completely overwhelmed by this gift, and yet so very gratified," said Mrs. Nester. "It was so completely unexpected. We think it is just wonderful."

Charles Nester Takes School Board Reins

Dr. Charles Nester was elected president of the Canyon Independent School board of trustees Tuesday night.

Walter Graham was named vice president in the reorganization of the board, and Wesley Cox will serve as secretary for the coming year.

Newton Crain was elected associate secretary.

Nester, who was vice president last year, follows Jerry LaGrone as president.

LaGrone, Cox and Joe Gill were reelected to the board last Saturday.

Board members canvassed the election returns during the Tuesday meeting.

Jack Downing received 302 votes, George Caviness totalled 248 votes, Robert Rinehart had 130, Gill registered 413 votes, LaGrone totalled 461, and Cox received 383.

Trustees voted to adopt a salary schedule for Canyon school principals.

Huelyn Laycock, superintendent, suggested that a schedule of five increments at $200 each be set up for a five-year period.

Canyon High School principal position would begin at $9,250 with a maximum of $10,250.

"In the event that the beginning salary is below minimum or state salary schedule, the higher salary will be in effect," Laycock explained to the board.

The tentative schedule shows the beginning salary for the junior high school principal at $8,500, and the Rex Reeves Elementary School principal drawing $8,000.

Beginning salary for the new elementary school principal will be $7,500, and the assistant high school principal will draw $7,000. Assistant principal at the junior high school will begin around $6,500.

Board members also voted to join Earl Marrs, Amarillo developer, in building a street on the north side of the Canyon school, which is being built in south Amarillo.

Marrs said cost of the street would be 75 cents per foot, and approximately 340 feet would be involved in the project.

The street will run east and west by the school.

"I think the street would be desirable," said LaGrone.

"We are going to need the road there," explained Gill.

Junior High Band Wins Two Firsts

Canyon Junior High School band, under the direction of Gary Zook, won two first divisions in the University Interscholastic League contest Tuesday.

Zook said the band won a first division in sightreading and in concert playing.

A Special Award plaque was presented to the band.

The plaque is given to bands who enter sightreading and concert contest, but are not participants in the marching contest held each fall.

The band played "March of Youth", "An Occasional Suite", and "Ceremony For Winds".

Canyon High School band will play today, Thursday, at 11 a.m. at Caprock High School for ratings. The band will be entered in both sightreading and concert.

Publication Spotlights Nancy Hicks

Nancy Hicks was featured in this month's edition of Texas Coop Power, a statewide publication with a quarter million circulation.

Nancy, a petite Canyon High School senior, is president of Texas Future Homemakers of America. Miss Hicks also recently was subject of a full-page cover picture for an edition of The Canyon News honoring future homemakers.

Laycock Outlines Pay Raise Bills

Several community leaders last Thursday were urged to support passage of legislation proposed by Texas State Teachers Association in preference to a bill proposed by Governor John Connally.

School Superintendent Huelyn Laycock said local taxpayers will be paying about the same for half the benefits if the governor's bill is passed rather than the TSTA bill.

Laycock spoke to about 40 persons at a luncheon meeting in the Gold Room at West Texas State University East Cafeteria. Hosts for the occasion were members of the Canyon Classroom Teachers Association.

The bill being pushed by the governor is Senate Bill 124 which corresponds to House Bill 446. The TSTA bill is Senate Bill 4 which corresponds to House Bill 5.

Laycock compared the two bills.

The governor's bill introduces a merit pay raise system for Texas teachers spread over a 10-year period. Average pay raise for 1965-66 would be $184 with an annual average yearly raise of $48.60 for beginning teachers during the next decade.

An experienced teacher at the top of the present master degree schedule would receive an increase of $125 per year. Laycock said that taken as an average, lumping experienced and inexperienced teachers together, there would be an average increase of less than $90 per year per teacher.

These pay increases would be financed 70 percent by the local district and 30 percent by the state. Under the present minimum foundation system the state finances 80 percent of teacher pay while the local district finances 20 percent.

The TSTA bill provides an across the board increase of $405 a year for all Texas Teachers to be financed 80 percent by the state and 20 percent locally.

Open Heart Surgery

Boy Okay After Two Years

BY MARGO WILLIAMS

Little Bud Shelton, seven years old, is a typical youngster.

He's in the first grade this year, and looks forward to the daily recess periods like any other healthy boy.

He flies kites, swings, rides bicycles, wrestles with his sister and brother, and finds scammering around the house just his speed.

But just two years ago, Bud Shelton's life was not so typical.

In fact, this typical boy survived open heart surgery at the age of five years.

But conversation about Bud's successful surgery still floods the memories of his parents, Buddy and Betty Shelton.

It all started one evening when Betty returned home from work to find her son "burning up with fever."

"I took him to the doctor and he told me Bud had heart murmurs," the mother recalled. "Then I took him to the Shrine Clinic in Hereford, and they told me he would have to have open heart surgery."

Doctors' view varied on what to do and when, but finally the parents took their son to Dallas for a special treatment at the Children's Medical Hospital.

"They ran a tube into his arm and to his heart to see if there was any damage, and if so, where the damage was located," she explained. "They told me after that he was all right at that time."

And Betty began to recall things about her son which had bothered the family for several years.

"He had complained about his legs hurting for many years, but doctors always told me it was just growing pains," she remembered. "But when he was in the hospital in Dallas they told me that the pain in his legs and knees was due to his heart condition."

"They told me that joints swelling, finger nails turning purple, and legs aching can all be signs of heart trouble," she noted.

But even after the one trip to Dallas Bud seemed to go

Permits Show City Expansion

Building permits issued by the city show that Canyon is booming.

A total of $484,834 in permits was issued for the month of March this year. In March of 1964, permits totalling $116,444 were issued.

For the first three months of this year, a total of $820,404 in building has been done. Last year for the same period only $261,485 in permits were issued.

Residential and commercial construction make up for the wide difference in the 1965-64 figures.

During March, some six residential permits were issued for a total of $88,080.

But commercial buildings and an apartment building made the difference for the month.

A permit was issued in March of this year for a drive-in at 700 23rd Street. The permit was for $16,500.

Also a 28-unit apartment building is being constructed at 203 28th Street. The total on the construction is $105,000.

Additions to Canyon High School totals $153,000 upping the figure even higher, and an addition to the telephone building in Canyon adds another $119,754.

A garage and a utility building add another $2,500 to the March figure.

In February of this year permits showed $183,170. Five residential permits were issued for a total of $108,800.

Permits issued in January of this year show $152,400. Five residential permits were listed for $105,000 and an art center located in the 2700 block of Fourth Avenue totaled $16,800.

February of last year showed only $14,050 on the rolls, and permits for January of 1964 show a total of $130,991.

Trio Finds Road Rough

Three Latin-Americans were arrested north of Canyon on a charge of drunkenness Saturday night after their car had bypassed a culvert and criss-crossed the E-Way.

They had gotten out of their car by the time officers arrived.

"That r-r-road, she is ver-r-ry rough," said an obese member of the trio en route to Randall County jail.

by Troy Martin FROM THE CANYON RIM

It is ironical that in the name of civil rights some of our dearest individual and collective rights stand either in grave jeopardy or have already been curtailed.

We refer specifically to the public accommodation and employment sections of the 1964 Civil Rights Bill. Standing a grim scepter with its shadow across the US Constitution is the administration's proposed voting bill.

Passage and enforcement of this bill will herald the disintegration of our system of states. Power that could lead to tyranny not known outside the Iron Curtain could well result.

Why has this set of circumstance come to pass in this country of ours?

We believe largely because people east and west, north and south have refused to heed the Golden Rule.

Over simplification?

If we would have justice for ourselves we first must mete out justice. If we would have protection of the law for our families then we must extend the protection of that same law to all citizens.

If we would require others to obey the law, then the law must be enforced fairly for all.

As one editorialist well said, "For it is only through the efficacy of the law that the conflicts confronting us can be settled peacefully."

If we who boast ourselves to be the more enlightened citizenry fail in these responsibilities, power-grasping politicians and self-seeking leaders of minority groups will have their way. Of this be certain. Then the great Anglo Saxon system of law and justice begun at Runnymede is certain of speedy dissolution and this generation stands condemned by an unhappy posterity whose fate it will be to follow after us.

Dr. Charles R. Nester has just been named president of the board of trustees of Canyon Independent School District.

The Nester family deserves special recognition. Dr. Nester, probably one of the busiest men in Canyon, finds time to serve his community in one of its most important posts.

Mrs. Nester is Canyon's top promoter of Girl Scouting.

We hope folks who have been worked up over the possibility of Lubbock getting a medical school instead of Amarillo won't blame Lt. Governor Preston Smith.

Preston Smith called us last week to assure us that he will work in every way possible to help West Texas State University. Preston Smith's record proves that he has worked many times in the past for the welfare of the Panhandle in general and WT in particular.

And besides, we say if we can't have the medical school we're glad Lubbock may get it.

Mr. and Mrs. Jackie Bennett Green of Los Angeles, California visited several days this week with his grandmother, Mrs. W.T. Haley, Sr. and other relatives.

MEANDERING WITH MARGO

With racket in hand, I stood on tiptoes, prepared for the serve.

Every muscle was tense, ready for action.

Then it happened. I was hit in the stomach with a tennis ball I hadn't even seen.

But being the patient soul I am, I vowed to keep playing. I was going to learn to return serves, even those I couldn't see.

As the afternoon wore on, I became a battering board for my opponent.

Finally we gave up the pretense.

My good-natured rival submitted to pleas of mercy and began lobbing the ball over the net.

Now those I could really do alot with--such as hit out of bounds. But at least I was hitting them.

Try as I may to be dexterous in some sport, I simply am not the athletic type... obviously.

Someday, someday, I will find a sport that not only I will enjoy, but I will be able to play.

'Til then, friends have to put up with a stumbling, awkward, would-be sportster.

School kiddoes in the area are getting a big Easter vacation next week.

School will be out for three days: Friday, Monday and Tuesday.

That's when you yen for the "Good Ole Golden Rule Days."

Congratulations to the Canyon Junior High School band and their director, Gary Zook.

The band won two first place divisions in the University Interscholastic League contest Tuesday.

The high school band plays in the contest today, Thursday, for ratings. Hope they do as well as their younger counterparts.

City Board Okays Plats

Planning commission of Canyon approved three plats and gave tentative approval on a fourth during a meeting Thursday evening.

Plans for development in Pioneer Estates were approved. The developers submitted plats for Lair Lane, a street which will run north and south just east of Thompson Lane.

The board also gave tentative approval to Jack Taylor, partner in the Pioneer Estates development, for further development south of the present addition.

Plans for another street in Hidden Valley Addition were also approved. Board members approved the name of a street as Creekmere Drive, and recommended to the City Commission that the name of Hillcreast and Creekmere Drive be changed to Tenth Avenue and Eleventh Avenue respectively.

"Since Hillcrest is already named, it would look strange to have Ninth Avenue, Hillcrest and then Eleventh Avenue," one board member noted. "I think we should approve the plat with the name of Creekmere Drive with the suggestion to the commission that they change them both to avenues."

Another member explained that it would be better to have two streets with the name change than just one.

"I do think we should request that the city restore uniformity to the avenues," another urged.

In Ponderosa Addition, plans for the development of Fifteenth Avenue were also approved.

2 Named To County Board

E. R. "Dutch" Cleavinger and R. B. Gist, Jr., were returned to the county board of school trustees in Saturday's election.

Legislation Affecting
Canyon Independent School District For 1965

Article VII - Texas State Constitution
"---it shall be the duty of the Legislature of the State to establish and make suitable provisions for the support and maintenance of an efficient system of public schools---"
Beacuase of this the Minimum Foundation program was passed in 1949.

Governor's Plan

HB 446 SB 124

The Governor's Plan makes serious inroads on the Minimum Foundation Program by:
Making local districts pay 70% of the increase for teachers' salaries including 20% of text books and 20 % of teacher retirement.

All resources are from the local level but all districts do not have equal resources. The Governor's Plan would cause local school property taxes to be increased immediately. Contrary to statements made there is no money available for raising teachers salary in the federal bill.

Teachers' Plan

HB 4 SB 5

($45 in '65)

Teachers' Plan continues the Minimum Foundation Program (which guarantees every child an effective educational program) and permits enrichment of that program according to their needs.

Under the Teacher's Plan no major tax bill will be required, but it will be necessary to pass some type of tax bill making minor adjustments to some existing tax levies.

Each person attending is asked to bring a sack lunch for the noon meal.

Purpose of the day is to give a preview of Boy Scouting for the Cub Scout and his parent. Cubs are classified as Webelos when they reach the age of ten and hold ranks of Wolf, Bear and Lion in their Cub Packs.

All Cub Scouts planning to attend Webelos Day are requested to notify den mothers or cubmasters by Thursday, April 15.

Moisture Up Over Last Year

The year of 1965 may yield more water than 1964.

According to M. B. Measamer, West Texas State University geography department, some 2.90 inches of moisture has been recorded in Canyon for the first three months of the year.

Only 1.94 was recorded for the same period in 1964.

Moisture for March of this year totalled .96.

"We are just below the average for this time of the year." Measamer explained. "In fact, the average is barely over three inches, and we are just below that."

Sunrise Service Planned

A special Easter Sunrise service will be held in the amphitheater in Palo Duro Canyon State Park this year.

Canyon Christian Youth Council, sponsor of the annual sunrise service, will present a series of tableaus showing events of Easter week and the Passion story.

CCYC members said this week they felt the tableaus will make the Easter story live more vividly for those who attend.

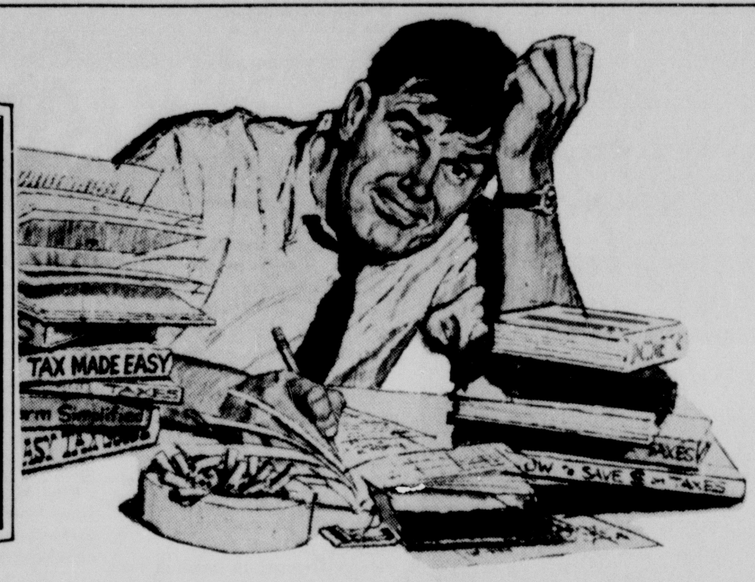

The program will be at sunrise Easter Sunday morning, April 18, in the amphitheater.

Admission to the park will be free of charge.

The E.P. Hardings were in Morse last week end to visit with their daughter, Mrs. Dale Jones, and family.

"walks" right over bumps and trouble

Independent front suspension takes the "truck" out of truck ride. It smooths rough roads, protects truck, driver and cargo from excessive jolting. And on Chevrolet pickups it's a proved system with millions of miles of user experience behind it. Try it out on one of Chevrolet's great Fleetside or Stepside pickups. It's one of the big reasons that Chevrolet is first choice with pickup users from coast to coast.

down.

"Bud began to slow down right before we decided something had to be done," she remembered.

Finally one day, the couple did get really concerned and took the boy to a specialist.

"He told me he HAD to have surgery, and that he would have a 90 to 10 chance against making it through the operation," she shuddered as she related the doctor's message.

The doctor quickly made an appointment in Dallas for the surgery and the family was on their way again.

"He was in the hospital three days before the surgery, then he was in the operating room for eight hours," the mother explained.

"The doctors kept telling us they would do the best they could do, and we knew they would, but we were nervous wrecks," she said.

But the brown-eyed boy came through the operation with good reports. He used 14 pints of blood during his two-week stay in Dallas, and it all had to be repaid.

"There was a misunderstanding, and we thought we had to have the blood paid back before we left the hospital," she noted.

"You have to give two pints for every pint used, and after several calls to Canyon and Hereford, we finally got the blood."

The call to Canyon resulted in another call to Amarillo Air Base, where members of the United States Air Force volunteered many pints for the boy.

The Rebeccas and Odd Fellows of Hereford contacted the organizations in Dallas, and suddenly all the blood that was needed was on hand.

And the boy came home with special orders to follow for six weeks.

But have you ever tried to keep a five-year-old quiet for six weeks.

How did Betty and Buddy do it?

"We didn't. I carried him up and down stairs in the house, but he stayed active at home. We couldn't keep him down," she said.

And at the end of nearly two years, the boy looks healthy, acts healthy, and freely says he is healthy.

"I can do anything I want to do," Bud remarked, and he precedes to prove it.

Last May the Sheltons took Bud back to Dallas for a check-up, and reports were good.

"His heart had been enlarged, but it is going down now. He has another checkup in August, and that should be the last," she sighed.

And Bud's none-the-worse for his experience.

Of course he does have a scar which begins under his right arm and runs across to the breast bone.

"They cut his breast bone and then wired it together. You can see the wire sometimes, but it doesn't bother him at all," said Mrs. Shelton, who is the daughter of Mr. and Mrs. Don Cloward of Canyon.

So all is quiet around the Shelton home--that is, all is as quiet as a 7-year-old boy can make it.

Laycock. . .

(Continued from Page 1)

Canyon school system has 87 teachers who receive 80 percent of their pay through the minimum foundation and 17 teachers whose salaries are paid entirely with local funds.

He said the local district would spend an extra $13,932 under the TSTA plan to give teachers a $405 raise next year but under the governor's plan would spend $14,434 for a $184 raise for Canyon teachers.

The TSTA plan makes no proposal beyond the 1965-66 school term.

Laycock said the governor's bill would shift more of the burden of financing public schools to local districts.

He pointed out that school districts may raise funds only through ad valorem taxes which he said are largely committed to finance construction and other expenses not paid for by state aid.

He said the governor's bill would require school districts to pay 20 percent of text book costs. The state has been supplying free text books since 1921.

Laycock viewed the governor's bill as an inroad into the minimum foundation program and declared that it does not change the picture as far as local control is concerned.

The superintendent said providing pay raises is imperative if Texas schools are to compete in the teacher market. He cited a recent instance when he was unable to hire a teacher needed by Canyon because he could not compete with schools in other states on salary.

Two Charges Filed Here

Two cases were filed in county court here during the past week.

Thomas David Jackson, 57 years old, Brownfield, was charged with driving while his license were suspended. He is free on $500 bond set by Judge Lloyd King.

Larry Gene Finley, 21, Meadow, was fined $50 and sentenced to three days in jail. He entered a plea of guilty to charges of driving while intoxicated.

water tower.

"This will save a lot of electricity," he declared.

Bryant also noted that this will save the city the expense of hiring another water department employee which would have been necessary without the bypass.

The bypass will allow water from the water field to be turned directly into the system in event of a power failure at the pumping station.

Bryant said this could prevent a hazardous water shortage in event such a power failure should coincide with a fire in the city.

"We could flip a valve and cut the field supply in," he related.

Bryant said a chlorination system with three-fold advantages has been installed in the well field.

He enumerated these advantages as being (1) modern equipment, (2) provides treated water for people tapped in on the line between the city and the well field and (3) allows chlorination to work on the water all the way in from the field to Canyon's system.

Preaching Gridster Injured

Arrival in Canyon of Bill Glass, pro football player preaching at First Baptist Church this week, was delayed by a traffic accident.

Glass, who plays defensive end for the Cleveland Browns, was injured near Harlingen last Thursday. He was in South Texas to pick up his wife who had been visiting there.

He suffered a gash on the lip. Twelve stitches were required to close the wound. He arrived in Canyon a day late.

He said the wound has bothered his delivery from the pulpit very little.

Mrs. Sherry Simpson and daughter, Judy, of Amarillo visited with her grand parents, Mr. and Mrs. Joe Green, last week end.

at the new school, but no action was taken.

Brick for the Amarillo school was chosen. Trustees voted to let Hereford Brick Company furnish the brick for both the inside and outside of the structure. The brick will be a speckle grey, according to architect Clayton Shiver.

Trustees also voted to continue the present coaches' salary schedule for next year.

Coaches' salaries include $2,102 above the regular schedule for the head football coach; $1,250 for the assistant coach; $1,600 for the head boys basketball coach; and $1,400 for the girls basketball coach.

All are above the regular teacher salary schedule.

Laycock told board members he felt the salary schedule compared favorably with other AAA schools in this area.

"I have not checked with all the schools, but ours would not be far off, I'm sure," he said.

A tentative date of April 27 was set for the next board meeting.

Mr. and Mrs. Clyde Davis, former Canyon residents, were in Canyon recently visiting with his brother, R. B. Davis and family.

The Clyde Davises were enroute from California to Odessa.

PTA Names Officers Tonight

Officers for Rex Reeves Elementary School PTA will be elected and installed at a meeting tonight, Thursday, at 7:30 o'clock.

Officer election was postponed from last month due to requests by parents of children in the new elementary school in south Amarillo. At that time, plans to form separate PTA organization for each school in Canyon Independent School District were discussed.

Music for the meeting, to be held in Rex Reeves all-purpose room, will be provided by sixth grade choir members.

Mr. and Mrs. Raymond Raillard will present a skit on "Developing Individual Abilities in the Home," to be followed by hospitality hour.

Meeting date for the association was changed this month due to Easter week.

Dewey Bryant Named Fellow Semi-Finalist

Dewey Bryant, Canyon city manager, is among 12 Texans chosen as a semi-finalist for the 1965 White House Fellows program.

David Rockefeller, chairman of President Lyndon Johnson's Commission on White House Fellows, announced that Bryant will be interviewed on a regional level later this month.

Some 229 young men and women have been selected as semi-finalists from a field of 3,000 entrants.

Fifteen persons will be selected for the special program with 15 alternates also being named.

Bryant will appear before a regional selection panel in Dallas, April 19 or 20. From these interviews 50 finalists will be selected.

The finalists will travel to Washington D.C. on an expense-paid trip for final interviews.

The President will announce the 15 Fellows June 28, and the program will go into effect Sept. 1, 1965.

The program, limited to college graduates aged 23 to 35, was initiated by President Johnson to give "outstanding young Americans" an opportunity for one year of first-hand experience with the workings of the federal government.

One Fellow will be assigned to the office of the vice president, one to each cabinet officer and four to members of the White House staff.

In addition to their daily work, the 15 Fellows will take part in an orientation program, weekly seminars and several field trips planned by the Brookings Institution to advance the purposes of the program.

Bryant, a graduate of Texas Tech in Lubbock, has been in Canyon two years as city manager. He was city manager in Rosebud before moving here.

Youngsters Take Outing

Kindergarten youngsters of the "Little Red Schoolhouse" took an outing and train ride from Amarillo last week.

The youngsters traveled by station wagon to Amarillo, where they had refreshments at the depot coffee shop, and then boarded the train.

Engineer hats, junior train men and nurses badges, and booklets on railroading were given the kiddoes.

"They were delighted with the ride, once the train began moving, and their squeals brought smiles to the other passenger's faces," noted Mrs. Suzanne Hawkins, one of the sponsors of the group.

Some 20 minutes later, the kiddoes emerged from #93 at the Canyon depot.

City Loops WTSU With Water Line

Problems of a water tower and the site of a proposed building gave Canyon City Commissioners some worry last week.

In a letter from Virgil Henson, comptroller at West Texas State University, commissioners were told that the Killgore Research Center building, proposed for WT, is to be built where a water tower is located on the campus.

"If the water tower is removed, then water pressure in the Administration Building on the campus goes down," explained Dewey Bryant, city manager.

"In fact," Bryant continued, "last summer the tower, which belongs to the school, was drained and water pressure on the second and third floors of the building was inadequate."

"We have an agreement with the university, to provide adequate water service to the institution," Bryant told commissioners.

City dads agreed that in order to provide adequate water service an eight-inch line is needed.

"This water project fits into our long-range plans for looping the college with a water line," Bryant explained.

Commissioners voted to loop the campus with an eight-inch water line, if proper easements could be obtained from the university.

"This will give better water service to the university and to residents east of the campus," said Mayor C.E. Thompson.

Bryant said the cost of the 4200 feet of line would be around $18,470. The line will run down the north Second Avenue alley from 19th Street to 28th Street.

City Commissioner Paul Lindsey did most of the negotiating for the addition to the water field.

K.E. Hines is home after a ten-day stay at a hospital in Albuquerque, New Mexico. He is reported to be doing fine.

Buff-Exes Game Friday

West Texas State Buffs and ex-Buff stars hit the field Friday night for the annual WT Alumni-Varsity football game.

Gametime is 7:30 p.m. and admission is $1.50 for adults and 50 cents for all students.

The Alums slaughtered the varsity last year, 34-0, but the '65 Buff squad is looking for revenge.

Helping the exes will be several players currently under contract with professional teams.

Such stars as Jerry Richardson of Canyon and Jerry Logan of Graham, who are starting defensive backs in the National League teams, and Pete Pedro, a player for the Toronto Cannadian League, will highlight the list of alums.

Richardson plays for the Los Angeles Rams, and Logan is a member of the Baltimore Colts.

John Varnell, Wilton Manley, and Earl West, all former Buff starters, will also add to the defensive strength for the alums.

Varnell is property of the Rams, and Manley has signed with the Dallas Cowboys. West is with the Saint Louis Cardinals.

Manley will be at a defensive tackle position, and West will play one of the corners.

Fourth member of the secondary will be John David Bryant, who coaches the WT freshmen.

Another outstanding ex-Buffalo, Billy Cross, will be making his first appearance in the series. The Canadian Comet played halfback for four years, 1947-50, under Frank Kimbrough, WT athletic director.

Cross will appear as a split receiver.

Nine other seniors will also see action during the game Friday.

Woody Gilliland, Dennis Flanagan, Doc Rowell, Tony Waters, David Sims, Bruce Kimery, Jerry King, Jerry McGill and Larry Patterson will be more reason for the varsity to play outstanding ball.

Other alums to see action will be Jim Ostrander (1961), Ken Friemel (1961), Bill Lorance (1963), Dick Lowery (1963), Joe Granato (1961), Jones Hedrick (1960), Jim Denny (1963), Ray Kauffman (1961), Jim Cunningham (1962), Bob Ratliff (1958), and Jim Greenwood (1954).

Series record stands at 2-1 for the varsity, and coaches expect an aerial game from WT quarterbacks Spencer Washington, Barry Johncour and David Fleming.

The J. C. Curbs were in Tulia Sunday to visit with her sister, Mrs. H. S. Loftin.

Visiting with the Curbs last week was their niece from Illinois who also visited with her grandmother, Mrs. Lawson, at LaCasa Canyon and with her mother, Mrs. Leon Armstrong, in Happy.

BLAKLEY FARGASON, seated, and Jack Parker University Data Processing Department, directed look over part of the computing equipment which can be used by area high schools for processing class rolls and scheduling classes. Fargason, who is with the West Texas State a day-long conference Tuesday for area school principals. He explained how data processing can speed up high school operations in enrollment. Parker is with IBM in Amarillo.

Computers Ease Load For School Officials

Data processing--a new phase to most Americans.

But data processing is beginning to play a large part in every day living for most Americans.

Computers are rapidly coming to the front in helping businesses, institutions and now schools in their bid for faster and more accurate billing, bookkeeping and accounting.

This year Canyon High School will join many other schools in the nation in the use of a computer in figuring class loads, hours and placing of students in each class.

Through the use of two computers at West Texas State University, CHS administrators are looking forward to enrollment time with some enthusiasm.

Blakley Fargason, a Data Processing Center employee at West Texas State, is the reason a large load may be taken off administrators, principals and students in high schools throughout the Panhandle.

Fargason, who has been with the department for a year, developed the process for scheduling students in classes.

The program will enable high schools to present the data processing department with a master schedule (which includes every class that is available and the time it will be offered each day).

From there the computer, under the guidance of Fargason, will figure the rest.

The finished product will include printed student schedules and class rolls.

"The speed of the computers can get this chore done quickly and accurately, releasing administrative personnel from this routine procedure to devote more time to other important matters," Fargason explained.

Plans at the WT department include the development of a complete system of student scheduling and record keeping which will be offered to the schools of the area.

Complete records for each student could be kept on magnetic tape and various reports and other information could be extracted and printed quickly and accurately, according to Fargason.

Census information, I.Q. scores, and other information could be included in the records at later dates.

Huelyn Laycock, superintendent of schools at Canyon, said this week, "We are planning right now to use the data processing for next fall.

"We did a trial run last year and we want to put it into effect this year for the high school and junior high school," Laycock continued.

Fargason estimated the cost at 25 cents per student.

Pre-enrollment of students is underway at the two Canyon schools.

The program begins with students meeting with school administrators, and requesting classes.

When the student requests have been determined, a preliminary run is made at the WT lab. This gives a tally of how many students have requested each course that is to be offered by the school.

This will be included if the school desires it at no extra cost.

The second phase of the program is a trial run on the master schedule. The Canyon schools did this phase last year.

The final stage is student scheduling. This phase produces a schedule for each student unless an irresolvable conflict exists on a student request.

The output will be the cards which contain the schedules, a printed output of the student schedules and class rolls for each section of each course.

Also the number of students in each section of the master schedule, and conflicts that occurred on the student requests will be available.

The program, which is being offered by WT, will be called Automatic Scheduling And Planning.

Fargason explained that the program should accomplish several features for schools.

"ASAP will schedule students based upon a master schedule and the students' approved course selections," Fargason said. "It will balance different sections of the same course when possible, and will schedule students into a section until the number of students reaches the limit set for that section.

"When this limit is reached, a message is typed explaining that the limit has been reached, and no more students are scheduled into that section.

"The ASAP will also allow specific sections of a course to be requested by the student. It will schedule this section if possible, and if not, will not schedule any section," Gargason continued.

He also said the program will allow special sections of a course to be included in the master schedule and students will be scheduled into these sections by request only.

The final feature offered will be the ability of the computer to allow the student's request to contain a request for one free period and will not schedule any class for that period.

A secondary school principals' drive-in conference was held on the WT campus Tuesday for area principals to view the facilities in the Data Processing lab, and to hear a thorough explanation of the program by Fargason.

A demonstration of special IBM machines was also given by Jack Parker, Data Processing Representative from Amarillo, during the Tuesday afternoon sesseion.

"We feel the entire operation will speed up our enrollment process, and as we grow we will be able to use the data processing program more and more," Laycock said.

Mrs. Norma Forman, journalism instructor at West Texas State University, presents Pat Ludeman of Pampa, and Charlotte Vick of Amarillo with the awards. INSURE CROPS AGAINST HAIL

WHAT CAN CROP-HAIL INSURANCE DO FOR YOU?

1. INSURES AGAINST LOSS TO BASIC FARM INCOME
Your basic income is your crops. If they're lost, you lose income. If they're protected by Crop-Hail insurance, however, your income is safe and more secure.

2. INSURES AGAINST NATURE'S MOST DESTRUCTIVE PERILS
Nothing is more damaging to crops than a sudden hailstorm. But our policy doesn't stop protecting there-it goes on to cover additional perils; according to the insured crop. We can give you full particulars.

3. PROVIDES FULL SEASON COVERAGE
Ask us about this "FULL SEASON COVERAGE" for your crops.

4. INCREASES COLLATERAL WHEN OBTAINING A LOAN
Because yourincome is more stable, financing for working capital is easier to obtain.

5. ENABLES YOU TO RETAIN A FLUID FINANCIAL POSITION
You will find it unnecessary to freeze a large part of your ready cash as a contingency against a "hail" emergency.

6. PROVIDES SECURITY AND PEACE OF MIND
You will rest easier at night knowing that you are fully protected. Should the unexpected happen, you are ready.

"The Sunnyhill Club was the first to be organized in the county," Mrs. Fullerton said. "I was one of the delegates who met with the commissioners seeking to hire a home demonstration agent for this county."

"Miss Sadie Kate Bass was our first HD agent, and the first president of Sunnyhill Club was Mrs. J. B. Knox," said Mrs. Fullerton.

The club was chartered with 10 members including Mesdames J. B. Knox, S. L. Robinson, J. T. Sykes, George Lach, Clarence Stallings, Ray Fullerton, Joe Russell, Melvin Miller, R. B. Gist, and H. F. Rathjen.

Other presidential posts held during the early years were by Mrs. A. E. Wise, 1936; Mrs. L. O. Jennings, 1937-8; Mrs. Clarence Stallings, 1939; and Mrs. H. F. Rathjen, 1940.

"Gasoline rationing and the lack of rubber tires was one of the main reasons the club was disbanned during the war years," says Mrs. Fullerton.

On March 29, 1949, a new Sunnyhill Home Demonstration Club was organized in the home demonstration agent's office under the direction of Miss Lou Ella Patterson, agent.

Mrs. M. R. Miller was selected by the delegation as temporary president and the charter meeting April 14, 1949, saw Mrs. R. B. Gist elected as the club's president.

Mrs. Gist served through 1949 and 1950.

Other presidents of the club have been Mrs. E. W. Miller, 1951; Mrs. D. L. Allison, 1952-53; Mrs. Charles Quarnstrom, 1954; Mrs. T. L. Henry, 1955; Mrs. Thomas Campbell, Jr., 1956; Mrs. O. O. Henry, 1963; and Mrs. D. K. McGehee, 1964.

Secretarial record between 1957 and 1962 have been lost.

Mrs. McGehee heads the club for 1965. Vice president is Mrs. T. L. Henry, and Mrs. H. A. Hardaway is secretary-treasurer.

AN ELECTRIC CLOTHES DRYER!

Mother's washable dresses, dad's shirts, brother's sport shirts, sis's dresses all find new life when dried electrically. Colors stay bright and materials last longer, too. And, Reddy does the job so quickly that fewer clothes are needed and this means money saved — so important when the children are in the growing stage (they do grow out of things so fast). And remember, you dry electrically for only 5¢ a load — and that's total energy cost.

Mrs. Lewis Tucek Supervises Plans For THDA Conclave

Serving as Randall County chairman of Texas Home Demonstration Association is Mrs. Lewis Tucek, a longtime resident of Canyon.

Mrs. Tucek, known to her friends and associates as Margaret, has been a leader in planning the District I THDA meeting, being held in Canyon today, Thursday.

Through her supervision, members of the 11 home demonstration clubs in Randall County have planned and prepared for the meeting, to be attended by more than 400 area homemakers from throughout the panhandle.

Margaret was born and reared in Canyon, and her mother, Mrs. Lillian Tate now is a resident of Sanford.

Margaret has three sisters, Mrs. Shirley Matson of Amarillo, Mrs. Brooks Gilliland of Dallas and Mrs. Tom Murphy of Burbank, California.

The Tuceks were married in December, 1943, and have two children, Lucy, age 18, and Gary, age 10.

Margaret is a member of West Side Home Demonstration Club, and serves as an adult leader for West Side 4-H Club girls, which has a membership of 24 girls.

Other hobbies of Canyon's THDA chairman include cake decorating and square dancing.

She first became interested in decorating cakes at a demonstration sponsored by the Randall County Home Demonstration agent office some 15 years ago. A representative from Sally Ann Bakery in Amarillo spoke to club members about cake decorating, Margaret became interested, and literally, taught herself to decorate cakes.

"Although I've never had any formal training in it, it's something I enjoy very much," she notes.

Both the Tuceks are active in Canyon's own square dance group, Canyon Capers, and serve as secretary of the Panhandle Square Dance Association. The association covers five districts, and includes approximately 30 clubs.

Members of the Tucek family are all active participants in First Presbyterian Church work, with Margaret serving as teacher for the nursery Sunday school class, and as president of the Women's Association of the church. Her work with home demonstration clubs in the past also prepared her for a duty which she held at the church until recently, that of church hostess.

Remodeling, or rather, rebuilding the old family home west of Canyon is one of the newest projects of the Tucek family. The old home, in which the Tucek family had lived was torn down.

In its place a new, modern home began to rise, to be completed in May or June. Until its completion, the family is living in a trailer house nearby.

Margaret has acted as supervisor for the meeting today, coordinating activities and plans of each of the home demonstration clubs in the county. She assisted each club in carrying out their duties for the gathering, which included work by Canyon Home Demonstration Club on a tabloid edition of THE CANYON NEWS, Edgetown HD, packets, Golden Spread HD, pages, Grandview HD and Lakeview HD, coffee and donuts, Highland HD and Palo Duro-Rusk HD, lunch, Pleasantview HD, lunch tickets, Sunnyhill HD, registration, and West Side HD, decorations.

Dedication

This edition of The Canyon News is dedicated to the women who are members of the Randall County Home Demonstration Clubs and to their guests on this day, the clubwomen of the 19 counties of District I.

Home Demonstration work began in this county in 1932, and it has survived war and drouth, to become a part of the progress of both town and country during the past 33 years.

Modern conveniences, paved roads, radio and television have joined rural and city dwellers into one community with many shared projects and endeavors.

Home Demonstration activities are enjoyed by eleven clubs, with an approximate membership of 150 Canyon and Randall County women.

We salute these organizations which have contributed in many ways to the life of this county.
